You will enjoy our British style rooms, with lovely wood floor and long curtains, stylish bathroom and historical furniture. All our rooms and beds were designed to be warm and comfortable.

ACCOMMODATIONS

CUISINE

At this great hunting program as at most places in the country, you will have the opportunity to enjoy the great Argentinean barbecues. We normally prepare them at lunch time with the best loin, beef and sausages. Our guests love our dove breast and appetizers. All this will be combined with great wines, normally Malbec and Cavernet Cauvignon from the provinces of Mendoza or San Juan. At night you will be delighted with typical Argentine cuisine with red meat, pork or chicken.

You can also request special dishes if you have any food related disease or choice. We are sure you will enjoy and be satisfied by our chef.

THE HUNTING

The pigeon Program starts at 7:00 am with a hearty breakfast. Around 7:30 am we take a short drive in our comfortable Mercedes Benz Vans to the shooting field. Schedules vary depending on the time of the year in between 20 to 40 minutes. After the morning shooting, we go back to the lodge for lunch and siesta. In the afternoon, we depart at around 3 pm for the evening shooting session. Schedules may change depending on the time of the year.

In the pigeon field you will be assigned a personal field assistant every 2 hunters, who will provide you with shells, guns and soft drinks in your shooting spot. This field assistant will prepare your blind, count your birds and shells, and carry some stools to the field for you. In the evening, when everybody finishes the shooting day we will return to the Lodge.

Search for the necessary information in our website and do not hesitate to contact us by email or through the phone so we customize your trip depending on the number of people and the season of the year you choose to visit us.

OVERVIEW

For an amazing Pigeon hunt, it is not all about the blind, decoys are also a key issue. Robotic pigeons help a lot, even the ones that move artificial wings or those that have 4 or 5 plastic pigeons and circle around like a carousel. Dead pigeons on the ground also help to attract these birds to our blind.

Our pigeon hunting experience tells us that semi auto 20 or 12 gauge are great guns for this type of shooting. We can also consider over and under guns in the same gauges. Ammunition is in between 6 to 7 and the shells can contain in between 28 to 32 grams of gunpowder.

OVERVIEW

At **Pointer Wingshooting** we really advice you to come and enjoy this amazing adventure with us. You can also choose to combine pigeon hunting with dove or duck hunting in a great mixed bag shooting.
