The house has five twin bedrooms each with an en suite bathroom, arranged around a spacious, sunken dining and sitting area with a huge open fire place. Although further from Cordoba airport, (a two hour drive), the location of Rio Seco makes it all worthwhile.

The thousand acres of corn, sorghum and sunflowers attract millions of doves and pigeon to the area and the vast tracts of grass-land produce good bags of perdiz. El Prado occasionally offers perdiz and the season is mid –May to end of August. There is one enormous dove roost within walking distance of the lodge and all the shooting is close by.

It is quite quiet here for non-shooting guests, though the estancia provides excellent riding and there is a swimming pool in the grounds for the warmer months. Please check special non shooting activities at this Lodge.
